RE: Cambridge Academy
Completion of Construction

Dear Mr. Trowbridge,

Thank you and thanks to the staff at TrowTiere for a job well done on the construction of our beautiful new campus! Over the course of this project, we were impressed with how thorough and detailed TrowTiere is in the way it manages its' projects.

Not only was TrowTiere Precision Construction "precise" in its construction management processes, but the assistance provided in helping to oversee the work of our other vendors, including the architect and the various utilities involved in the project was invaluable.

We are very pleased with the outcome and look forward to enriching the lives of our students in this new facility. We hope to have the possibility to work with TrowTiere on potential future developments and would be happy to recommend TrowTiere as the construction manager for other projects.

Sincerely,

A handwritten signature in blue ink that reads "Julio Gonzalez".

Julio Gonzalez
