**Re: GE Modular Space Branch Facility – Successful Project Completion
Chandler, Arizona # 2042**

Dear Mr. Trowbridge:

I am writing to commend you and your firm on the successful completion of the new GE Modular Space division office, located in Chandler, Arizona. Having you and your associates on board as GE's local project managers to facilitate the coordination of the design team, City of Chandler, Quest, SRP, etc. was invaluable to this office concerning this project.

In spite of the numerous hurdles encountered through design, permitting and construction process, TrowTiere Precision Construction managed to secure the Certificate of Occupancy on December 15, 2005, prior to the final scheduled relocation date for the local GE Modular Space branch team.

I would like to take this time to thank you and your team for the outstanding performance and without doubt give TrowTiere Precision Construction a superlative recommendation as a construction management firm. In addition, feel free to have any prospective future clients contact me as a positive reference.

Sincerely,

Kenneth MacKenzie, Real Estate Project Manager
