Dear Sirs,

I am writing this letter of commendation for J. D. Smith and his crew for the stellar work they did on the new building recently added to our campus. From the first day that J.D. started work here we all have been impressed by his communication skills. He kept us informed on a regular basis of where the project was and the timelines for completion.

J.D. and his crew were supportive of the needs of our students and staff and were attentive to doing their job with the safety of our children, parents and community in mind. All of the crew as well as J.D. were responsive to problems in a timely fashion.

Throughout the entire project J.D. and his crew members were accommodating to our daily schedule and were always pleasant. They showed a great deal of respect when they often had to work around scheduling problems and the traffic problems associated with our school's dismissal time.

Our students, staff and community are excited to see the completion of our new classrooms and we sincerely thank your company for their professionalism and kindness during the construction time.

Thank you,

Dana Schwartz
